

Amendments to the Specification:

Please replace the paragraph beginning on page 7, line 3, with the following rewritten paragraph:

Figure 7 is a plan view showing a variant of this radio-control antenna support arm, with indication of ~~its four positions~~ exemplary positions;

Please add the following new paragraphs after the paragraph ending on line 5 of page 7.

Figure 8 is a second perspective view partially showing a tower crane equipped with the antenna support arm according to this invention; and

Figure 9 is a perspective view of a tower crane usable with the antenna support arm according to this invention.

Please replace the paragraph beginning on page 7, line 6, with the following rewritten paragraph:

Figures 1, 2 ~~and 4~~ 2, 4, 8 and 9 show a lower frame, also referred to herein as a rotating chassis 2 ~~chassis 2~~, of a folding tower ~~crane, crane 1, shown in exemplary manner in Fig. 9. In an exemplary embodiment,~~ the rotating ~~chassis-chassis being~~ chassis 2 ~~being~~ is mounted on a fixed ~~chassis, which is not shown,~~ chassis such that it can be orientated. On the rotating chassis 2 there is articulated, above a horizontal axis 3, the base of the mast 4 of the crane. A support arm 5 for a radio-control antenna 6 of the crane is mounted, such that it can be orientated, on the rotating chassis 2 and more particularly on one of two lateral parts of this chassis 2, between which the base of the mast 4 is located.
